

Boost the power of Microsoft Teams with the enterprise-grade Cloud PBX of Elevate

Better Together

Collaborate in Teams. Call from Teams using Elevate

Seamless to End-User

Familiar Teams Interface and minimal user training

Complete Support

Support from local experts

Seamlessly add the power of Elevate cloud-based, enterprise-grade PBX to Microsoft Teams¹ giving your business the communications features it needs directly within the Teams applications. Get the reliability and features your business deserves from local support experts you can trust.

MICROSOFT TEAMS AS YOUR COLLABORATION HUB:

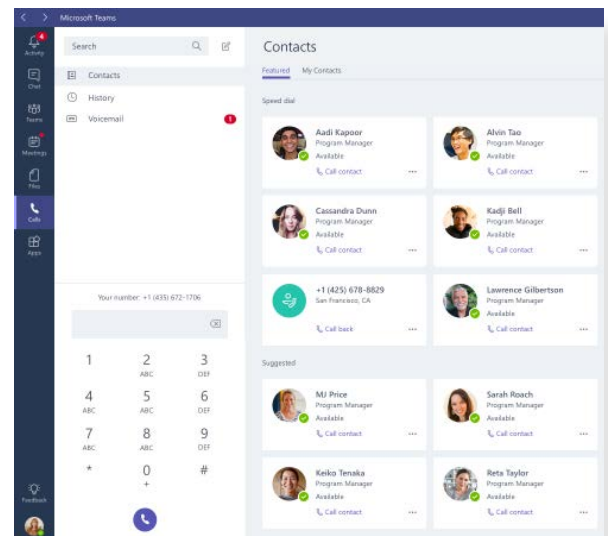

Use Microsoft's collaboration tools to manage chat, file sharing, and video conferencing.

NATIVE VOICE INTEGRATION WITH MICROSOFT TEAMS:

Seamlessly add Elevate enterprise-PBX features to Microsoft Teams with no additional employee training required.

ELEVATE ENTERPRISE-GRADE PBX:

Greet and route callers to the right person or department and make external calls directly from the Microsoft Teams dialer through the Elevate cloud PBX.

1. Microsoft Teams licenses purchased separately.
